Not what I was looking for. This book primarily introduces various Harrow Card related class archetypes, which is information I already had access to. I was looking for something that would go more in depth about what each card means/symbolizes to help with using Harrow readings in game. This did not do that. The Harrow cards are pictured on the inside covers, and that's about all the attention they get. It sums up how to Harrow by saying "Much of each harrow card's meaning is literally illustrated on its face." Not helpful. A disappointing and largely useless addition for my purposes.

Whether you are a fan of the Tarot and Pathfinder, or you just wanna attack people with playing cards, then this is the book for you! Get your Gambit on and use the Cartomancer witch, Sczarni Swindler or other similar archtypes! Well worth the money IMHO.

It Had a different cover, but it was in great shape and delivered before the anticipated date. Good show.
