## Customer Reviews

I only used this for a Physical Geology lab, and we read out of it periodically. It held all the answers I needed to know about geology, so I suppose it's a good read. You're probably not gonna buy it if you don't HAVE to have it, so the main thing to say is that it's a textbook. A textbook about geology. Not much more to say about it.

Was supposed to be new, had tape holding cover together and some pages were just sitting in binder ripped out
