Guide To Getting It On

Synopsis

The only book where it's almost as much fun to read about sex as it is to have sex. And it just keeps getting better.

Customer Reviews

Among the many lovely items I received from my Queen on Valentine's Day was this: "The Guide To Getting It On!" by Paul Joannides, published in 2000 by Goofy Foot Press. This is a huge 698-page oversized paperback book that covers just about every sex topic you can think of, with an especial emphasis on every aspect of The Deed itself. It's delightfully light-hearted and yet it's amazingly informative, discussing all sorts of topics in a frank, playful style that makes it a delight to read. Sample chapters in the book include: Chapt. 9 - Sunsets, Orgasms, & Hand Grenades. Having an orgasm, the different types of orgasms a person can have (an orgasm in two-person sex usually doesn't feel like an orgasm from masturbation, for instance), faking orgasms, how it feels to different people. Oral Sex - Chapt. 17 - Popsicles & Penises and Chapt. 18 - Vulvas & Honey Pots.

Techniques on giving (and receiving) head, why different people don't taste the same, beard burn, using your teeth, advice for men from females (and for women from men), different positions. Chapt. 34 - Techno Breasts and Weenie Angst - feeling inadequate about your body, and how to feel better because you're not a Playboy/girl model. Plus: Getting naked, massages, nipples, sex fantasies, birth control (all types, including abstinence), pregnancy, sex laws, goofy sex terms, legitimate sex terms, and much much MUCH more. Most of the book is large text, but there are many drawn illustrations (not photos), most of which are of people smiling and enjoying themselves as they

illustrate whatever the current chapter is talking about. In fact, the whole book feels that way: it wants to make you smile, enjoy yourself, and have FUN with sex -- whatever sex-related topic you're trying to learn about.
