Fifty Places To Ski And Snowboard Before You Die: Downhill Experts Share The World's Greatest Destinations

Synopsis

Fifty Places to Ski and Snowboard Before You Die is the 10th book in the popular Fifty Places series and takes readers to some of the world's most inspiring skiing/snowboarding destinations: the Chugach Mountains (Alaska); Aspen, Crested Butte, and Steamboat Springs (Colorado); Tuckerman Ravine (New Hampshire); Rusutsu (Japan); Chamonix (France); Portillo (Chile); and Whistler Blackcomb (British Columbia). Based on interviews with leading experts, the book chronicles the rich history of these sports and the people who have mastered them, including Tommy Moe, Jonny Moseley, Billy Kidd, and Greg Harms. Above all, Santella provides readers with the gorgeous scenery, the glamorous ambiance, and the always thrilling experience of visiting mountains from the Alps to the Rockies, whether it's apr s-ski in Cortina or helicopter rides into virgin Alaskan powder. Praise for Fifty Places to Ski and Snowboard Before You Die: "Even the reader who gets no farther than the couch can feel transported to the snow-covered peaks, mogul fields, and sparkling expanses sculpted by the book's avalanche of quirky nuggets, insider tips, and historical perspectives . . . After writing nine other Fifty Places guides, author Chris Santella has the drill down." - Reuters.com "Whether you're an expert looking to hit the double diamond moguls or a beginner who wants a gentle slope just in case stopping is an issue, these spots have a little something for everyone." - The Daily Beast "For powderhounds, Fifty Places to Ski & Snowboard Before You Die by Chris Santella (\$25) looks at snow sports destinations around the world." - Associated Press

Customer Reviews

This is such a great book! It not only offers valuable information and suggestions on places to go skiing but it gives beautiful pictures as well. The only suggestion I have is for it to have a picture of every destination mentioned. On some of the locations it's only text and no pictures. It makes me want to plan a ski trip!

Love this book, it's a great skiing guide. From the Alps in Switzerland, to the Rockies in the US, to the bron mountains in South America, this guide has some of the most challenging, but, most beautiful places on Earth! I have no complaints. Everything I need to know about a certain mountain resort, 50 Places to Ski & Snowboard Before You Die has it covered!

Great pcitures and descriptions. My 13 year old son hates to read but loves snowboarding, this book was perfect because he was interested in going to all these places.

Mt. Bachelor? Seemed like an area full of intermediate stuff when I have been there and I am not rushing to go back - perhaps their new terrain plans have changed things some. In general, the southern Cascades in Oregon are just not as steep as the northern Cascades are in Washington. Gotta believe there are numerous areas in the states or elsewhere that are better, perhaps a lot better. However if you can consistently ski Cascade snow, you can ski anywhere, and the Cascades normally do get a lot of snow.

Gteat book for anyone that loves riding mountains. Not a guide but it can start the dreams

Great book for ski & snowboard enthusiasts! Places to put on your bucket list..

Gorgeous book. Arrived in mint condition. Great pictures and writing.
